Just a Thought

Last year I replaced all the windows in my house with those expensive, double pane, energy efficient kind. But, this week I got a call from the contractor who installed them. He was complaining that the work had been completed a whole year ago, and I hadn't paid for them.

Hellooooo? Your fast talking salesman told me last year that in ONE YEAR these windows would pay for themselves!
Helloooo, it's been a year!

There was only silence at the other end of the line and then he hung up.
I bet he feels stupid!
